

## **SAP Taulia and PayMate Partner to Enhance Payment Flexibility for Businesses Across APAC & EMEA**

*Through the partnership with PayMate (or DuNoMo in Australia, South Africa, and New Zealand), SAP Taulia customers can streamline business payments using virtual commercial credit cards.*

**SAN FRANCISCO, CALIFORNIA, JUNE 20, 2025:** SAP Taulia, a global fintech leader of working capital solutions, has partnered with PayMate, a leading business payment solutions provider, to enhance payment flexibility for businesses in APAC and EMEA<sup>1</sup>. As part of this global collaboration, PayMate's payment infrastructure is now available through SAP Taulia's platform, enabling suppliers to receive virtual card payments directly into their bank accounts without manual intervention.

With PayMate's advanced payment technology and infrastructure, SAP Taulia's customers can now access an expanded suite of payment options, including bank transfers and virtual card payments, supporting both domestic and cross-border transactions. This will allow businesses to leverage their existing credit lines to optimize working capital, streamline supplier payments, and enhance financial efficiency.

"We are delighted to be partnering with PayMate to provide our customers with future-forward ways to manage supplier payments," **said Danielle Weinblatt, Chief Product Officer at SAP Taulia.**

"At SAP Taulia, our mission is to help businesses thrive by unlocking liquidity trapped in supply chains. This partnership strengthens our ability to offer more flexible and efficient payment solutions to businesses across geographies, extending Taulia's footprint across regional territories. Employing PayMate's infrastructure through our ecosystem expands the payment options available to our customers, enabling them to optimise cash flow and navigate economic cycles with greater agility."

"We are thrilled to partner with SAP Taulia to bring our cutting-edge payment capabilities to their extensive network of clients," **said Ajay Adiseshann, Founder, MD, & CEO at PayMate.** "This collaboration aligns perfectly with our mission to simplify and optimise business payments globally. Together with SAP Taulia, we are empowering businesses in the APAC and EMEA regions with greater control, visibility, and efficiency in their financial operations."

Serving businesses within EMEA and APAC, this partnership gives companies greater access to efficient, scalable payment solutions, meeting the growing demand for flexible, seamless transactions. In turn, businesses can strengthen supplier relationships, simplify payment processes, eliminate manual reconciliation, and improve security.
